About the Living Classrooms Classic at Langston

The 3rd annual Living Classrooms Classic at Langston will take place at Langston Golf Course in NE, DC. This landmark golf course was a key catalyst in the movement to desegregate golf courses throughout the United States, starting in our Nation's Capital. Upon its inception in 1939, Langston Golf Course was a safe haven for all African-American golfers. Today, it remains a vibrant and accessible entity, a beacon of life for the community. Golf has a very tangled history with race and diversity, and with Langston at the helm along the Anacostia, it brings hope for the future. A short video about the history of the course can be found here:

<https://www.golfchannel.com/video/how-langston-golf-club-helped-grow-game-golf-african-americans>

Living Classrooms Foundation provides access to more equitable education, workforce development, community safety, and health and wellness opportunities that aim to disrupt the cycle of poverty and build safer, stronger, and healthier communities for all. Langston's history aligns with the mission of Living Classrooms Foundation, and we are honored to host this event at such an important landmark in American history. The first nine holes of the course are listed on the National Historic Register and the back nine are located on Kingman Island. Living Classrooms manages the other half of Kingman Island as a conservation area and space for environmental education programming.

Proceeds from the event will support Living Classrooms' programming.
